The News. in the liouse of Representatives yesterday there was quite an exciting debate, upon Mr. Hill's motion to postpone the consideration of the Kansas question until the second Monday in May. Mr. Marshall, moved to lay the report of the Conference Committee on the table, and enquired it the motion pervailed, whether it would not tera heate all legislation upon the matter-The speaker thought it would dispose of the whole matter, upon which Mr. Marshall withdrew his resolution, and the House proceeded to con-sider the question of postponement. After some money or reference. The swindler is about 80 further debate the vote was taken, and the motion defeated by 100 to 104. Mr. Stophous then moved to postpone the further consideration of the English bill natil 1 o'clock, on Wednesday, which was carried.

THE OBSING DEMONSTRATION IN NEW YORK,-The demonstration of the sympathisers with Oraini, Pieri, &c., came off in New York, on Thursday evening last. Some 5,000 persons marched in procession with music, banners, torches, &c., making a very imposing show. In the Park, where the speeches were made, a multitude of some 20,000 people gathered together, Addresses were delivered in English, French, Italian, Polish and German. The affair passed off without the slightest disturbance.

English's Schrak .-- The New York Kvening Post thus characterizes the infamous schome of Exament for compelling Kansas to take Lecompton: "Your money or your life, is the substance of his proposal, made with more than the trench. ory and less than the courage of an ordinary highwaymau."

To what depth of degradation must the Buchausu Administration and the "National Democracy" be reduced, when they consent to accept and to sustain such a dishonorable and dishonoring proposition as that of Mr. Exectsu!

DEPOT BULLDINGS FOR THE DETROIT AND MIL-WAUKES IL R .- The contract for building all the depats for the D. & M. Railway, from Grand Rapids to Grand Haven, has been let to Messra. Ives and Martindale. They are all to be theish . od by the 1st of September. So says the Grand Rapids Enquirer.

Our son Squacts .- It is currently reported that one could almost Imagine that the sweet perthe Mouey Kings of Europe, the Rothschilds have been for the last two or three months real izing cautiously, but continually, many of the so. curities they held, both in London and Paris.

LARGE PURCHASE. -- We hear of a purchase of 40,000 tons of rails by the Russian Government, made a few days before the sailing of the last steamer. This indicates that the railroad system of the empire is being pushed to completion.

SENATOR SUMBER'S HEALTH. -Dr. Wister, of Philadelphia, pronounces Mr. Sumner's case still 'sorious,' and prohibits may attention for the present, to business.

The Island of Portin.
The part which this little island is destined to play in the diplomacy, the commerce and the international relations of the European States. international relations of the European States, is by no means unimportant. It is situated at the Strait of Bab-el-Mandob, completely commanding the entrance to the Red Sea, and thorefore the Isthmus of Snez. It is the key to the southern channel of trade with India, China and Japan. It belongs to Turkey. England occurring it and does not cross to occurre it for the Japan. It belongs to Turkey. England occupies it, and does not cease to occupy it, for it neutralizes the dangers from France it the Suez Canal were executed. Turkey will not sell it, and decies, through the Constantinopie press, that she is in treaty with England for its sale, it is confidently asserted by late French papers, as set forth in another column, that France and Russia have protested by a joint note against the English occupation, and Turkey refuses to grant a tirman for the piercing to the Isthmus of Suez so long as England continues to hold Perim. French diplomacy is arging Turkey to make a formal domand of England's evacuation of the island. There is overy indication that of the island. There is every indication that the continental nations are waking up to the immonse strategatical and commercial importance of this apparently insignificant island, and it is even said that France would look upon it is even said that France would look upon England's continued possession as a consist belli. It is one of the smallest, but by far the most valuable bit of land this side of the Arabian Gulf, standing as it does not the variation for on the state of the Arabian Gulf, standing as it does at the mouth of the Red Sea, whose coasts are uniformly mountain-tainous, and even precipitous, from Mount Sinal The southwest in corner of to Barbar handed.

the peninsular Arabia and the promonteries of Egyptian Abyssinia almost meet at the mouth of the Red Son. The Island of Perim is the link the Red Son. The Island of Perim is the link that unites them, and whoever possesses that possesses the key to the channel through which, in fifty years, will flow the commerce of the old Fast and the stalwart West.—N. Y. Post. 4

From the Stovens Point Pinery, April 23d. For the last few days we have had a deluge of

rain: the Wisconsin is bank full—at the finest possible stage for running out the lumber.— Heavy quantities have passed down, and the and is not yet. It has been one of the best seasons hus far for the river-men we have ever witness ed. All the lumber that is ready will got out. DROWNED .- Two men were thrown overboard

from a raft while running the Conant's Rapids hast Wednesday alternoon and drowned. Their hat Wednesday alternoon and growned. Their names as we learn them, are — Green and — Murray—one from Fond du Lac, the other from Portage City. Several others were thrown from the ratt, but owing to the horoic exertions of some men in boats, were rescued from the raging torrent.

A TERRIBLE CRIME REVEALED!—A MURDER FERRETED OUT!—We published, about two weeks age, a dotailed statement of the finding of the bones and clothing of a man in the woods about sixteen miles from this city. This publication has elicited a full explanation of the mystem resulting the purpore sistence and occupant tory, revealing the name, residence and occupa-tion of the unfortunate man, and the circumstan-ces of his duath. His name was John Hickoy. He was a raitcoad conductor, and was murdered and robbed of a large sum of money in August last, and left by his murderer to rot in the woods where he was found. The name and present whereabouts of the probable murderer are known, whereabouts of the probable murderer are known, and the proper legal authorities are already in hot pursuit of him. We cannot give further particulars at present, but shall by the whole matter before our readers at the earliest practicable moment.—Detroit Free Press, 25th.

Mr. Gates was quite satisfied with the applicant, provided that he could put down \$50, by way of security, as Gates wanted him immediately, to go out making large collections. On Friday last (mlacky day) the clerk called, secopted the torms and paid down the money to Gates, who wanted the clerk to stay in the office while he wanted the clerk to stay in the office while in went out. The silly dupe waited long before he suspected anything; but as Gates did not come back, he flushy thought himself swindled, and gave the affair ever to a smart detective officer; but it was no use, as Gates had loft the city.—
There was nothing in the office of the firm, excepting a few silps of paper. Most of the heavy wood work is done, and the arches or supporters of each side finished and are on the centre ready to be put up. In style and make, the bridge will be similar to the others on the lower part of the river. We should think that this new bridge ought to be finished in less than a month. Since the work commenced upon it, there has been no means for crossing the river there with toams, and the people of the vicinity will have reason to rejoice when it is finally completed.

Congressional. Washington, April 26. 21 House,—Mr. Quitman asked leave to introduce point resolution concerning the admission of

ew States into the Union. Mr. English, of Ind., objected. Cries for the reading of Mr. Quitman's resolution then foll wed.

The Speaker sustained Mr. English's point of order, as a privileged question was already

pending.
Mr. Quitman said his resolution was to apply oly to the future.

The Speaker settled the question on agreeing

Mr. English acquiesced, but various other gentlemen objected. Orles of "Itel the vote be taken new." "Question! Question!" Mr. Marshall, of Ky.—If the consideration is posspoued notif the second Monday in May; it will not be in order to move the previous

question.

Mr. Chiogman—It is in order now.

Mr. Marshall moved to lay the report of the Committee of Conference on the table, and enquired if the motion prevailed whether it would not terminate all legislation and leave Kansas in the position it was before the application was nade for her admission.

The Speaker replied that it was his own opin

ion that it would dispose of the whole matter.
Mr. Stephens asked for a call of the House. The call was ordered by 123 year to seventy inys. . Mr. Marshall w'thdrew his motion to lay the Report on the table. The question then recur-red on the motion to postpone the motion until the second Monday in May. Mr. Stanton, of Olifo, said that two days had already been spont

in taking votes. He was willing by common consent, to let the question go over till Wednes day. Mr. Grow, of Pa., interfered, saying it will not go over by common consent.
Mr. Stanton remarked that Mr. Hill, who made the motion to positione until the second Monday in Mar, was now absent. He, (Stanton,) took it for granted that the motion was made in order, meanwhile, to take up his, (Hill's,) motion. If

meanwhile, to take up his, (Hill's,) motion. It she measure was postponed until that time, much light would be reflected on the question from various sections of the country.

The subject is now presented in a new or different form. The gest-from Ga., Mr. Stephens, has herefolore been against the submission of the question to the people.

The Speaker reminded Mr. Stanton that the greatless past he confined to the perponents.

guestion must be confined to the mere question of postponement.

Soveral gentlemen proposed that the pending question be postponed till Wednesday, and during the conversational debate Mr. Steward, of said he wanted immediate action; the Kanhas bill ought to be defeated or carried, though; he wanted an end put to the controversy.

A conversational debate ensued as to the propricty of postponing the Kansas question to Wednesday next, instead of the second Monday

May.

Mr. Harris withdraw his motion for Wednesday, seeing that there was a diversity of opinion n the subject.

The House proceeded to vote on the pending.

motion to postpone the further consideration of the Report of the Committee of Conference, to the second Monday in May, and it was disagreed to---100 against 104. On motion of Mr. Stephens, the consideration of the Report was postponed till 1 o'clock on

Wednesday.

The delliciency bill was returned from the Senate with amendments, to two of which the House disagreed, namely, that striking out \$4,000 for the House reporters for the Globe, and that riking out the provision for the settlement of the accounts of the late clock of the House. Mr. J. G. Jones offered a resolution that dur-ing the present week, it shall be in order each day for the Committee of the Whole on the state of the Union to take a recess till 7 o'clock in the evening, for general debate only during the consultations as to whether the resolution should now be finally voted on, or whether the House

should adjourn.

Mr. Spinner said he had a proposition which would be adopted. In response to cries of 'Read is," the clerk began reading a preample incor-porating an extract from the Burlington Hawkeys newspaper, alleging that an order was re-ceived from Commissioner Hendrick to locate 0,000 acres at the Council Bluffs land sale in the name of Senator Bright, and adding that of course the order was complied with out of office

public lands at a single haul, &c. **

The Speaker stopped the clerk from reading, saying the papers contained a reflection upon a member of the co-ordinate branch of Congress.

Mr. Washburne, of Maine, wanted to know whether the Speaker held that Mr. Bright was a member of the Senate. Ulauphter on the Reof the Senate. (Laughter on the Re publican side.)

The Speaker was understood to say that he

did.

Mr. Grow suggested that the charge was against the Commissioner of the Land Office and not against Mr. Bright, who was incidentally inolved. Mr. Washburne, of Maine, said that genera

consent was given for reading the article.

The Speaker remarked that the manual orpressly provided that reflections should not be
made on members of the co-ordinate branch even Mr. Hughes said the attack was on a Senato

from his State. He availed himself of the rule, and asked that the offensive language be taken down at the Clerk's desk.

The Speaker replied that this matter did not come before the House in the manner which the

ules contemplated.

Mr. Hughes hoped that the House would indulge limin saying that the imputation—

The House returned to the consideration of Mr. Jones' resolution; and finding itself without a quorum, adjourned.

SENATE—Mr. Seward presented the joint resolution of the Legislature of New York, in fayor of the promotion of Lieut. Mairry. Referred to the Naval Committee.

Mr. Wilson presented a protest from ship owners and many steamers of Boston against

owners, and many steamers of Boston against the law compelling them to purchase Rodger's Marine Signals. Referred to the Committee on ommerce.
The Paraguay resolution was taken up.

Mr. Mallory explained the gircumstances un-der which the difficulty had occurred between the Water Witch and the Paraguan authorities. the water witch and the Paraguan authorities. He spoke of President Lopez as a man of education and political asgacity, who desires under his peculiarm form of government to develope the resources of Paraguay. Lopez has never refused reparation, and we have never yet asked him for reparation. Mr. Mallory was strongly opposed to using force against the small regulation. posed to using force against that small repul whose defence of the circumstances we have not yet received, whose commerce is so valuable and whose feelings are certainly favorable to

ward us.
Mr. — of R. I., quoted from the records to show that Paragusy had manifested the re-rerse of friendliness towards the U. S. He thought we should not send too many negotiations back and forth, but send a commissioner lothed with authority promptly to procure re-

Mr. Mallory replied, that when President Lopez compiained of ourrages committed against Paraguay, by Capt. Page, he referred to the lat-ter having facilitated the Bhode Island Company, in leaving the country without repaying to the Paraguain the \$10,000 advanced from the Treasury for their relief, the communication had no reference to the firing into the Water-Witch. Mr. Mason said that Mr. Mallory had spoken CHARLES SOLOMOFIA CO.,

Their report recommends no hostility, but that the President present to the President of Paraguay a conciliatory, yet firm demand for caplanation and atonement; in view of the peculiar character of the people of Paraguay, it is petitively to the president present to the peculiar character of the people of Paraguay, it is boot that the President have power to back his demand with a disable of force.

was done. Mr. Seward yielded the floor. Mr. Greene then moved that all prior be postponed, the report of the conference com-nitive be considered, which notion was carried, notwithstanding, the cornest opposition of Mr. Stewart, of Mich.

Mr. Stewart then wanted to have the House omendments read for which the substitute is proposed. Mr. Hunter, Greene and Toombs of Mr. Filzuatrick ruled that the amendment

ould not be read.

Mr. Stuart appualed.

Mr. Toombs moved to lay the appeal on the able. Mr. Stuart demanded a vote when the Scoate

efused by 25 years to 29 hays to lay the appeal TO-DAY'S ADVERTISEMENTS on the table. A discussion lasting two hours took place the parliamentary rule, and the practice applica-ple to the case, when a vote was taken on the chair's decision which was sustained by a vote of 0 against 14. Mr. Crittenden was not ready to pron

his judgment on this question. He asked the courtesy and justice of the Senate that it he postponed till. Wednesday. Lost by year 25, rys 29. Mr. Douglas spoke zealously in favor of the postponement, asked by the Senator, who had served the country with distinction before some of those who now roused the request were born,

howed that he asked it on no factious, or sint er view. Mr. Toombs replied to Mr. Douglas, and urged

Mr. Toombe replied to Mr. Douglas, and urged an immediate vote.

Mr. Pugh argued that he must have the bill from the House, before the Senate could proceed nother step.

Mr. Green in reply, declared the Senate violated no parliementary law in proceeding now.—

He had, not to vote on the bill now.

The only question for our direction is whether the Senate will or will not concur in the report of the Conterence Committee.

Mr. Seward said that as the Senator from Kentucky, Drittenden, was the author of the amendments to the Senate bill, which were adopted by the House, he is parliamentarily, the person bearing the responsibility of a great measure, and should be accorded the brief postponement he requests. The opposition in the Senate are and should be accorded the brief postponement he requests. The opposition in the Senate are no longer two or three—they are a power; they

can be heard, and must be heard. They have the same, responsibilities and ac-countabilities as the majority, for there is, per-haps, little difference between the services to the country of an honest and patriotic minority and the majority. As to the parliamentary phrase of this question, the written law is plain, that the bill is in the House of Representatives. Mr. Bell took many technical exceptions to

the form of the report.

Mr. Bright complained that the minority had sprung a new question. He maintained that they would look in vain for any procedent to revent the majority from acting as they propos Mr. Dayton replied to Mr. Seward, urging that xpedioncy demands immediate action, and that courtesy does not require that a distracting ques-ion shall be kept open for the concurrence of

one Sénator. Mr. Cameron-retained an unpleasant reminis ence of the last night session, and did not want knother, and therefore moved that the Sanate adjourn. Lost—28 against 22.

Mr. Crittenden made a lengthy general re-

mentary practice is conformed to in this case.

Mr. Clark then addressed the Senate on the seneral merits of the question. From the time he concluded till 7½ o'clock, the Senate was wholly occupied in attempts to come to an un-derstanding, and in defeating motions of various descriptions.
Messrs. Wilson, Green, Iverson, Brown,
Houston, Collamer and others, took part in the proceedings. Finally it was agreed that the subject be made the special order for to morrow

MILWAUKEE: TUESDAY MORNING, APRIL 27.

The News and its Contemporaries The utter lack of sympathy with which the public received the complaint of the News, against its Republican cotemporaries and the Sentinel in particular, of wrongfully aspersing the character and discrediting the statements, of that immeculate organ, has prompted it to try a new tack. Accordingly, in its Sunday issue, the News changes its tune, and instead of barking at the Schrönel for bestowing an occasional notice upon it, professes to be flattered and gratified by these attentions. Hear it:

Surveys, and explorations, Contingent expenses of the N. E. Executive Buildings, Stables and conservatory at the White House, surveying public lands and private by these attentions. Hear it:

"Who does not like to be noticed? newspapers have poculier sensibilities, that are gratified by popular attentions—little matter whether approving ones, or condemnatory." Very like. There is, at least, more reason in this view of the matter, than in the other. And no doubt the News is under obligations to the Sentinel for thus gratifying its passion " to be noticed." True, our strictures have not contributed to its reputation, but they have certainly added to its notoriety. Indeed, a good portion of the public are indebted to the Sentinel for the knowledge that such a paper as the News is published in Milwaukco and what manner of iournal it is.

That the News should feel grateful for what we have done to rescue it from oblivion, is natural and proper; and its offer to give us some lessons to "editorial etiquette," as a return for our attentions is muite commendable. We are, however, restrained by two considerations from accepting this offer. The one is, that we profess have never yet noticed a touch of that quality in the News, we question its ability to lustruct

THE ALBARY EVENING JOURNAL.-This longtried, etaunch and ablo expouent of Republican principles, comes to us in a new and neat dress, and once more bears at its mast-head the well known and honored name of Thurstow Ward, as its principal editor and proprietor. Associated with Mr. Waxo to the editorial management of the paper, are Groken Dawson and Friederick W. SEWARD, both of whom have been connected with the Journal, at different times, for many years past. Mr. SAMUZL WILKESON, who has edited the paper, with signal ability, for the last two years, has been compelled, by failing health to retire and sock some other pursuit. The Alba ny Emming Journal is now "the State Paper" of Now York, and has the additional merit of being the ablest political journal, and one of the most Mar. 81, '57. reliable papers, published in the Union. Its veteran editor. A PILL FOR THE PILORIM PATHERS .- One Me Showers, a Representative in Congress, from the sovereign State of Alabama, took occasion, a few days since, to deliver himself in this wise, touching the Pilgrim Fathers, Plymouth Rock and New England generally:

"Sir, I have a severeign contempt for the memory of the Figrim fathers. The religion of Flymouth Rock is the religion of fanaticism, of intelerance, of infidelity, of bigotry and hyporries. It is the religion of the Beston clergy noe, who violate the seventh commandment in some relations of the seventh commandment in se tures; and who, when exposed to the indignation of a virtuous community, are licelized and feted by the fairer portion of their flocks! In my judgment, Mr. Chairman, the greatest calumity that over befol our country was that event which clothed Plymouth Rock with its historic

Remembering this circumstance, we fully expect to see this Mr. SHORKER, the latest villifler of New England, proved to be a full-blooded Yankee, who is forced to dony and decry the land where he first saw the light, in order to lull thesuspicious and enter to the prejudices, of his new compa-

Our friends in the rural districts ought to lee! thomselves under infinite obligations to Major Tiemann for his vigorous onslaught upon all the organized schemes, which have been so profile in New York, for the express purpose of swindling simple minded country people out of their money. He has exposed and broken several of these organizations, but there are a good many still in existence which his power cannot touch It is hard to protect simpletons from the of-facts of their own simplicity, and, until all the feels are dead we are apprehensive that city swindlers will continue to carry on a thriving business in some shape or other, by taking ad-vactage of the gullible nature of unsophisticated dwellers in the country districts. There is but o is sure rule for our country friends, and that is to roluse to have any business transactions with people they don't know, or who have not an es-tablished reputation. But, above all others, they should turn a deal car to overybody who offer to give them something for nothing, or who pro-pose to make them a present of fifty dollars worth of jewelry as an inducement for them to purchase fifty cents worth of books. It might be supposed for this kind of bait there would be no gadgeous greedy enough to bite at, but recent developments have proved that in the rural districts there are plenty of such.—N. I. Times. Times, April 22. Mayor Tumans has, indeed, deserved the thanks, both of City and Country greenhorns for his energy and success in breaking up these various Swindling Schemes. Let him persevere in well-doing, and especially let us invite blast tention to a certain great " AMERICAN HOME-STEAD LAND COMPANY," which claims to own 100,000 acres of the best land in Wisconsin, and offers it to "unsophisticated dwellers in the country districts," under the inviting head, "who wants a farm for five dollars ?" This " Land Company" has its head-quarters at Washington. D. C., but a "Trustue" somewhere in Jauncey Court, New York City. The other "Trustee" is ex-Governor Basstow, at Janesville, in this State. Perhaps Mayor Tiemann, of New York, or Mayor Lawrence, of Janesville, by calling on either of the aforceaid "Trustees," might satisfy thomselves as to the sort of "farms," thus freely offered to "gudgeons," at the low price of "five

Transpired Caused by Hand Times.—I heard of a melancholy event this morning which shows how the hard times affect individuals. A man living in Choleoa, held in trust for a young woman \$10,000, which, some time ago, he loaned to a great firm in Boston, a firm whose note was considered much better than hard gold. Well, the firm failed last October, and the impression is that it was rotten years before it fail.d. The trustee, being an honest man, with that meet in supportable of all luxuries, a conscience, sickened under the thought of what had followed his good intentions; became orazy, was carried to good intentions; became crazy, was carried to an insane asylum a fortnight ago, and died yes-terday, leaving a wife and children to the mersies of that world which is described as a tough wrestler, twith a bear's gripe for the poor. I dare say it is all right, but then to finite mind its

Mr. Wyatt, who was arrested for stealing on Fildey, and hauged himself in consequence, committed the crime to save his family from starvation. He was as respectable a man as you commonly see, and stood as well as most men. The monly soo, and stood as well as most men. Lue hard times reduced him to utter destitution, and so ho fell, and died by his own hund. His case, lacking the two closing features, has been that of thousands of good impu, who were not quite so thoughful as they should have been. But how many of us over do think?—Boston Correspondence. Le Ir Reseauton?—Why does not Mr. Buchanan problem the House of Representatives in a state of robellion? How long is he going to submit to this triding with his authority?—Not a day passes that he is not openly withstood in the face and eyes of all the world. It is becoming a matter of scaudalous notoriety that his word is no longer law. Even his own party in the House heattate about obeying orders, and are losing all sense of discipline.—St. Louis Dem.

The Army Contracts.

WASHINGTON, April 19. Gen. Scott on the 11th of January stated the force in Unth under Col. Johnston to conglet of 2588 officers and men, provided the regiments and companies were up to the maximum standards; but it is estimated that the force requires. 850 recruits. The troops to be put in march will be 2018 officers and men; the whole force to be provided for is 5906 officers and men; the reinforcements and recruits to be forwarded nun

The contracts made for supplies and transportation are very heavy. The regular appropria-tions for the quartermasters' and commissary departments for the current year were \$6,100, 000. These appropriations were exhausted has October, and the House has passed a bill providing \$3,000,000 for deficiencies in these branches of the military service, that is the de-ficiences are almost (twice as great as the total amount of expenditure authorized by law. How these deficiencies have advened is very important question. In the first place, it accords he total amount of expenditure authorized by law. How these deficiencies have accrued is very important these deficiencies have accrued is very important these deficiencies have accrued is very important these deficiencies. In the first place, it cannot be truly said that whatever real necessity may have existed for the coercion of the Mormons, was wholly unanticipated by Congress or by the President. The attitude of Brigham Young and his followers has been in no wise different since the adjournment of Congress on the 3d March 1857, from what it had been during the two or three or four precoding years. In 1852 Judges Brocchus and Oranderbury were virtually expelled for the offence of holding commissions under the Federal Government and not belonging to the Mormon sect. In 1853, the first year of General Pierce's administration, the attitude of Young and his coterio was the same as in 1857; but the then offence of holding the two or sixting Administration thought it paccessary to send only one equalore of dragoons and two batteries of artillery, to be estationed temporarily at Salt Lake, the commander, Col. Steptoe, carrying the President's commission as Governor.

Mr. Buchanau was in Washington, and had his Cabinet selected a month or six weeks before Congress adjourned. It was as well known in January and February what course it would be necessary to pursue towards the Mormons as in the carrier of the content of the

in January and February what course it would be necessary to pursue towards the Mormous as in April and May. If a gigautic expedition, of which the contingent expenses alone were to amount, within the year, to \$8,000,000, was known while [Congress was in seasion, the question whether it should be authorized should iave been submitted

have been submitted.

But unquestionably the country would have forgiven overything, and Congress would have excused the usurpation of power, had the Administration goue forward in a direct, open, and energetic manner to reduce the Mormons to obedience to law. Had it not, under cover of a war against treason in Utab, waged a trassonable crusade during the first year against liberty in Kausas, Mr. Buchanan and his cabinet would have been viudicated, and their measures would have been liberally and labricated with by have been liberally and leniently dealt with by have been liberally and 'leniently deat with by the people. The President' confesses that he kept the troops, nominally collected for the Ani Mormon expedition, to suppress the Free State men of Kansas, to put down their meetings, to trample out their local town and city organizations, to pursue, harrass, and banish prominent citizens on netoriously false and fiveclous charges of high treason, and finally, to guard the vagabonds engaged in fabricating a spurious instrument which he chose to call a Constitution. In the opinion of sound constitutional lawyers, that use of the army was an of-ferce which only required the additional circum-stance of actual collision with the people and loodshed, to make it high treason.

oroused, to make it nigh treason.

But to let the point pass, it is plain that the deficiencies Congress is now voting for the alloged expouses of the war with Utab, were incurred in great part by the war against Kansas, which, though now suspended, is liable to removal. But to the contracts. The first which claims

But to the contracts. The first which claims attention is the famous and inysterious arrangement with Roid and Armstrong. This contract was given to them on the 23d of February, 1858. The cattle were to be furnished at Forts Leavenworth, Kearney, Laramie, and Salt Lake City, 3000 head, at an average of 94 cents per pound, nott. I have been informed by a party applying for this contract, that he and others were informed that it would be let by the Commissary at Fort Leavenworth, and that after other bidders and their arents had left here for that station. and their agents had loft here for that station, the contract was let to Reid and Armetrong.— Now, conceding that this would have been a falsehood and a trick which no person in the War Department having authority to act in this matter could have been guily of, it appears that the contract was given "t without notice," and that almost immediately the favored persons throw it up, and the larger part of the same con-tract was awarded, also "without public notice," to Messrs. Russell, Majors. & Waddell, contractore for transportation. The contract with Reid & Co. was concluded on the 23d of February, and in March the substitute contract was entered into. So far as appears, the precise date night have been the lat day of March, which would have left R & A. just five days to discover that they could not halfit their contract. There is no doubt in the world that it was a collusive one, and real bidders who intended and were able to

perform their engagements, were defrauded of the opportunities they would have had under fair competition. The freight contract is a monster in its way. The freight contract is a monster in its way. It was made with Messrs, Russell, Majors and Waddell, January 16th, and provides for the transportation of 10,000,000 pounds of stores and supplies at certain rates, and of 10,000,000 pounds additional at higher rates, if required by the department. The price per 100 lbs for 100-miles to Salt Lake is \$4.00 from January to March 200 desired March 51 50 from January to March, \$2 00 during March, \$1 80 from April to September, \$2 20 for September, \$3 00 for Ou-tober, and \$4 50 for November and December. tober, and \$4.50 for November and December. Porhaps a fur average would be \$2.25. For the first 10,000,000 pounds the aggregate amount to be paid is \$2,475,000, for the next 5,000,000 pounds additional it is \$1,544,500, and for the first five millions it is \$1,895,900, making a grand total for which the Department has provided in this one contract, of \$5,619,000. As these would be no exclusion ranked at \$281 Lake.

here would be no sufficient market at Salt Lake there would be no sufficient matrice at Sais Lake; for the cattle of the trains, they are to be taken for beef at the average price of \$50 per head,—Some items in this bill of costs are startling.—Take for example a barrel of, flour. A stout wagon will convey 20 barrels. The distance from Leavenworth to Salt Lake may be stated at 1,100 miles via the South Pass and Bear River. The stores conveyed in Japuary and February. The stores conveyed in Japuary and February cost \$44 per hundred, a barrel of flour started then, which may arrive in camp by the middle of May, would have cost \$88 for freight, and adding its cost at Leavenworth, it would draw from the Federal Exchequer exactly \$100: A bushel of potatoes which at Buffalo is worth 50 cans will cost the Government, in Utali, \$32. cents, will cost the Government, in Utah, \$32

Among the contracts are 400 army wagons, a 140 dollars each, and 1500 dragoon horses at \$159 dollars per head. The wagons are not dear, and the horses, if they be subjected to rigid inspection, are very cheap.

The Sonato will probably pass the Deficiency Bill, to-day. This measure provides for all these generating expanditures.

a barrel of pork will cost \$165; a barrel o

The Mississippt Crevesse. The crovasse at Bell's plantation is ugly in on

sense, and beautiful in another, as we found up-ou visiting it yesterday. For some distance before reaching the crevesse we had to walk along the levee, at the topmost line of which the-river lashed angrily, whilst the inner side of it was placidly laved by the inundation, or inland was placinly layed by the infunction, or initial lake, some six or eight feet below the level of the river. The terrent running through was velu-minous and terrifically rapid. The width of the break in the level through which the water passed was not more than about seventy feet.— Mr. Bell, who was present, informed us that the torrent had worn itself a channel fifteen teet deep. It may easily be imagined by this what a tremendous quantity of water leaps through the break. The break in the levee was widest at the outside, and narrowed in, funnel wise. The upper side of the break appeared to be fortified from further enroschment by a stout row of pick-ets. The lower side of the break, however, had no protection, and was yielding slowly to the im-petitious assault of the flood.

The central current of the crevesse was so vio and contral current of the crevisis was so vio-lent that its out-curling oddy was wearing away the bank, undermining it, andicausing it to dis-appear piccemeal. The levee broken is a new one, or a newor than the old semi-circular levee, across whose semi-circle of a third of a mile the new one stretches in a straight line. The flat-beat with which it was on Sunday attempted to dam too breach, was washed through, and rested against the inner leyes, in front of Mr. Beil's sugar mill. The scene altogether was a sad one, and hourly promised to become worse. The eddy on the lower side of the creysase had reduced to the creysase had

thin tottering strip, and last evening the gush of water was doubtless over a hundred feet wide. SPECIAL NOTICES. Upon inquiry as to what was in contemplation regarding the grevasse, we were informed that the Opelouses Railroad Company and the Parish ne-halfaddition to the Regular Rates.

the Opelouses Railroad Company and the Parish Jury had combined, and were consulting ways and means of stopping the crownesse. It was said that they had jointly agreed to expend \$25,000 in the effort, to begin to day. Five hundred negroes and white laborers were to be had at an hour's notice, and material was abundant on every side. It is to be hoped they will get to work, and in the right way, to day. The idea of some of the people of Gretna and Algiors, that Harrey's Canal will carry off all the flood before it can reach them, does not appear to be a very safe one. The water in the awamp is very high; the track of the Opelouses Railroad is several feet under water, and the cars have to stop some disont of "True Sentings." a superior Bindery, which under water, and the cars have to stop some dis-tance above the crevasse. Large crowds of peo-ple visited the crevasse during the day, including many ladies; and an omilious and a carriage ap-peared to be doing a blisk business, carrying people to the scene from the Fourth District

The N. Y. Tribune on the English The N. Y. Tribune of Thursday last dissects the Conference proposition of Mr. English as

"Mr. English submits as his own a project, which is readily assented to by the slaveholding half of the Conference—said project proposing in effect, to differ to the People of Kausas enormation in and variety the La with three mindered by the trade and the printed to constructing several railroads in various directions through your Territory; whereas, if you said No., you shall thereby forfeit those lands and railroads, forfeit your chance of immediate admission, and shall be doomed to remain out of the Union until you shall have proved that out of the Onion that you shan have proved that you have a population sufficient to entitle you to a member of Congress—which is over 93,000 now, and will be from 110,000 to 125,000 under the census of 1860. Of course, no advocate of justice to Kansas, or

Of course, no advocate of justice to Kaussag. of Federal impartiality as between Slavery and Freedom, can support this project, which in effect offers a bribe equal to some millions of dolars to the people of Kaussas as an inducement that the Large as a Slave State. But to come into the Union as a Slave State. But if the Lacomptonites have strength to force if the Lacomptonites have strength to torce this measure, through—and we presume they have, it they are unanimously in its favor—we shall regard their success with protoning indifference and with a sanguine expectation that it, will prove futile and abortive. Others may distrust the People of Kaneas, but we nover shall until they prove themselves unworthy of trust. The Land bribe offered them by English is a great Land byibe offered them by English 18 a great one, in view of their general poverty and need; but it is not so large as the Devil is reported to have offered on a memoriable occasion, and will prove no more effective than that. There are among them greedy speculators in town-sites and Indian floats, as well as ravenous office-seek and Indian floats, as well as raven to some seas-ers, who are prepared to do anything, sell any-thing, in order to glut their avarioe or their am-bition; but the majority are not of this stamp. Probably enough votes might be drumined up by the speculators to double the fair Pro-Slavery poll of the Territory, making Five Thousand in all for the acceptance of Lecompton as a measure of peace, &c., for the sake of the Land-grab, and in view of the concession of the Legisla by Calhoun, the power of a majority to change the Constitution, &c.—but these would be met by a poll of Ten Thousand against Lecompt and all its wiles, is bribes, and its usurpations. We say, then, Let the Lecomptonites pass English's scheme if they will and can; they will thereby delay, but not provent, the admission of Kansas under a Free Constitution, authorized and ratified by a large majority of her People.

The Philadelphia Press gives the following in resting particulars of his last moments : The shadow which the death of the Rev. Dudhey A. Tyng has thrown over this community seems to have despened from the hour of its an-

ouncement.
The closing scenes of his life, as described by one of his brothen in the ministry at the Jayne's Hall meeting, was a most thrilling narrative, and seemed to move every heart present. Indeed, as the minister—who was an eye-witness to the same—proceeded with his simple statement of the last words addressed by the dying man to those around him, all eyes were suffused with

From the time of the fatal accident to one hour revious to his death, Mr. Tyng had an unfalter-ing confidence in his recovery, and even con-versed feely and hopefully upon what, as he be-lieved, Providence had designed to teach him in lieved, Providence had designed to teach him in the dispensation to which he was being subjected. He believed it was intended to promote his greater efficiency as a minister of the Gospel and the looked forward with bright hopes when he should again be uble to preach, and to preach as e had never done before.

About one hour before his dissolution, his

family, learing that his hopes of recovery were groundless, approached him with solemn intima-tion that in all probability he was soon to leave tham. His physician entered the chamber at the instant, Mr. Tyng spoke to him of these fears. The doctor's reply was, that they were only too true—that his time was fast drawing to a close. The dying man, with the same beroic spirit which never forsock him through all his sufferings, received the solomn announcement

sufferings, received the solomn anaconnecement with the utmost realgnation, enswering only, "Thou, it is well—it is very well. God's will be done."

After a few moments of composure, he called his friends present and the members of his family to his bed-side, to bid them a last farewell. He thanked his physician, who is not a professing Christian, for his kind attention, warning him with great tenderness to less no time in giving himself to that Savlour who was now sustaining him in the hour of trial. To each of his children he gave an alloctionate farewell, hoping that, by the grang of God, and the case at a devoted well.

himself to that Saviour who was now assessed him in the hour of trial. To each of his children he gave an affectionate farewell, hoping that, by the grace of God, and the care of a devoted mother, they might early be brought "to know their Saviour."

To his wife, who has attended to him with so much affection and fidelity, all through his illness, he included in his particip words the request that she would use her endeavors to bring their boys up to the ministry. He was now to say farewell to his vonerable father, the Rev. Stephen H. Tyng, D. D. Taking his aged parent by the hand, he said with much connectness, "Stand up for Josus I father; stand up for Josus I father; stand up for Josus I father; stand up for Josus I father; the ministry, wherever you meet them, to stand up for Josus I had tell my brothern in the ministry, wherever you meet them, to stand up for Josus I father; when the Edward secretary as clock work.

Justis! At the close of this solomo corumony, feeling that he was approaching his end, he requested those around him to sing a hymp. After a moment of silone, his own wife, notwithsteading he solome circumstances under which this request was made, commenced singing the beautiful hymn—made doubly so by its appropriateness to the occasion—boginning—

Let me hide myself in Thee."
The hymn was sung, and even while the achoes of that mountful strain yet floated in the air, the spirit of Dudley A. Tyng took its flight to other, and, as we have reason to believe, more

to other, and, as we have reason to believe, more blissful realms.

At the meeting in Jayne's Hail, on Tucsday, a very singular fact was referred to in connection with Mr. Tyng's recent sermen in that hall, to an innence audionce, from the text of Scriptures, "Ye that are men go and serve the Lord."

Towards the close of his cloquent discourse, on that occasion, he asked pardon if he had said anything to offend his congregation, but adding, "I must tell my Master's errand, and I would rather that this right arm (placing his left hand upon it where it has since been amputated) were upon it where it has since been amputated) were moutated at the trunk, than that I should come short of my duty to you in delivering God's mes

sago."
The bold anti-sectarian principles of Mr. Type and the cordiality with which he frater-pized, with his brethren of all denominations, endeared him to the hearts of thousands,

Only a year ago, two scamon belonging to the English steamer Beyrout, came on shore near our shippard, and for a few minutes were conversing with Mr. Gowen. They then started for a walk to the Medan quite near our residence, and our reaching the breastwork. our residence, and on reaching the broastwork, one of them picked up an unexploded detonating shell, intending to keep it as a relic, but sinding it rather heavy, throw it down, when it instantly exploded, and killed him, almost severing the head from the body, and completely cutting off his right log. The remains were brought to our yard, whouce they were buried. His companion escaped with a slight scratch upon the lip. On the following day two Russians were killed in a similar manner, while picking out the stopper of a shell. The lock by which the concession ignited the power of the fallel is a curious affair, being a small equilateral cross, with a capsute at each point, and four little hammers hold by a human hair. Our Assembly report shows a longer list of bills passed than has been presented in any one day before, during the present session. The most important of these was an act to authorize the compressioners of school and university lands.

rissioners of school and university lands the commissioners of school and university lands to rout ponalties in certain cases.

This act provides that all persons who have failed to pay interest on purchase money and loans, as heretofore required by law, shall be exconerated from all ponalties attached to the old law, provided they shall pay such indebteduess on or before the 5th day of June next. This will, doubtless, prove a great relief to a large number of our citizens who are owing the Stuce. of our citizens who are owing the State.

The Senate passed a number of bills. Among
them was the bill amonding the Banking law.

A NEGRO SLAVE SHOT BY HIS CLEBUYMAN. The N. O. Picayune of the 18th contains the following paragraph :

"Rev. Dr. Taylor, who recently married the widow of the late S. W. Downs, shot a few days since, says the Quachita (La.) Register, one of his wife's negroes. The negro killed was one noted for his insulvordination, having praviously been shot two or three times. Mr. Taylor attempted to co rect him, when he drew a knife, attacked the everser, and defied his master who ttacked the overseer, and defied his master, who

firmed Jubilee in Louvenworth. LEAVENWORTH UCT, K. T., April 19.
Saturday night was a glorious occasion. The freemen of Leavenworth met together in their might and gave rent to their joy over the defeat of Lecompton. Two thousand freemen congregated on massa. With banners, transparencies and flags they marched through the atreets to the Parry House, where able and cloquent speeches were made.

The platform adopted by the meeting was one worthy of Kansus freemen. LEAVENWORTH UTT, K. T., April 19.

apeeches were made.

The platform adopted by the meeting was one worthy of Kansus freemen. It is of mational import. Based upon the principle of free territory and free labor, it looks to the rights, hopes

tory and free labor, it looks to the rights, hopes and privileges of white MKK, as opposed to eligarchic rule and class interest.

I extract a copy of the platform, as read by J. C. Vanghau, and adopted by acclamation, from the Times of this morning, and commond it to the consideration of all parties and organizations of the country that are ready to unite in delicae of the living principle of the federal constitution, and the only basis of American progress and liberty.

That the right of self-government in the proble is inclimable.

That standing, for this end, on the broadest principles of American nationality, and waiving all side questions, however important, we repeat the despotic dogma established and acted upon the despotic dogma established and acted upon the despote dogma established and acted upon by the national democracy, that the constitution of the union is a sulf-excenting instrument in ex-tending slavory, and calmly but resolutely de-clare for free territory against slave territory, for free labor against slave labor, for the welfare of the whole republic against the interest of a limited and favored class in the republic.

I append the additional account of the jubilee

I append the additional account of the jubiles as given in the Times:
Would that we had space and type to present a full picture of the glorious celebration of Saturday night; but we have them not, so we must be content with a low brief words.
The city was all life. Business houses and private dwellings were illuminated, and as the eye glanced over the valleys and on the bill-tops and along the streets, and now one blaze of light and along the streets, end saw one blaze of light he scone was striking and the panerums bill-

Then came the procession, admirably arranged by its skillful commander and marshals, enliven by its skilful commander and marshals, salived of by beautiful transparencies, speaking through pretty motioes, done up in Bucker's best style. After that the speaches at Parcy's botel, not long nor studied, but full of beart; but better than all, and above all the dway fooling of the people—a thousand (throughet, giving, voice to their outlinessess in hurtals which made the hills ocke. Then the effect soldiers the brave Turners. onthusiasm in hurralls which made the hills echo.

Then the cilizen soldiery, the brave Turners in costume, the joyous music and the stirring sounds of drum and life, the boom of the cannon the veritable Kickapoo, the men in their might and women in their beauty and purity—what might we not say in describing such a scene.

Never were we prouder of Leavenworth and her freemen than on Siturday night! As they shood compactly together, intelligent, enthusiher recemen than ou statumy night: As any stood compactly together, intelligent, onthusinastic, resolute,—laborers all, yet free and for freedom,—we wished only that the despots at Washington could see them.
